

Ceramic Filter Plates

Static Semi Cross Flow Filtration (submerged Membranes)

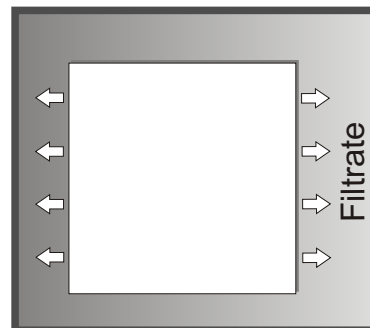

Ceramic Filter Plate 0.14

lxb	316 x 226 mm ²
Thickness	6 mm
Filter surface	0.14 m ²
Pore size	200 nm / 60 nm

Ceramic Filter Plate 0.18

lxb	305 x 300 mm ²
Thickness	6 mm
Filter surface	0.18 m ²
Pore size	200 nm / 60 nm

Special geometries on request

Advantages: resistance to chemical and thermal stresses

Applications: submerged filter for MBR Membran Bioreactors
